

TERRA *Master*

The future of graders . . . today!

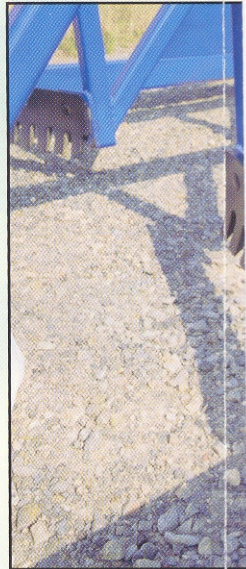

Terrain Grader

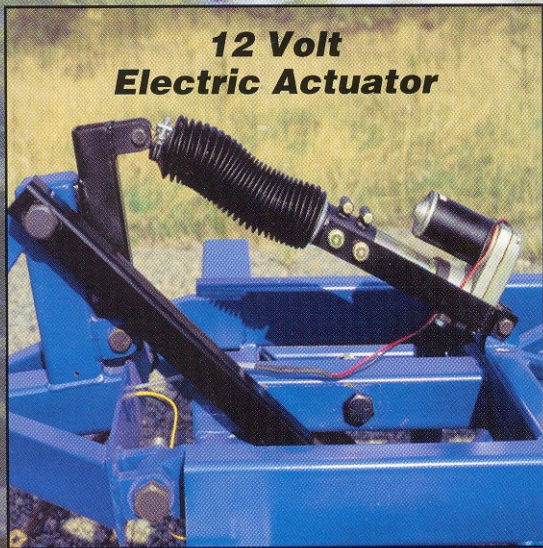

**Aggressive and rugged,
yet designed very light**

TERRA *Master* **TERRAIN GRADER**

Multiple

**12 Volt
Electric Actuator**

**Dual Rear Wheels With
Independent Top Link
Adjusters**

**Equipped with trailer lights and safety chains,
the *TERRA* Master XLTG model is easily towed.**

Heat Treated Serrated Grader Blades. Rear Heat Treated Straight Grader Blade.

The Shop Industrial shows you the future of terrain graders. We call it **TERRA Master**. You'll call it perfect. Gravel, slag, sand, loam, wood chips or dirt. Imagine a grader that makes even the roughest surfaces flat and smooth. When it comes to getting the job done, **TERRA Master** sets new standards in cost and work efficiency.

- Multiple angled serrated grader blades with a rear straight grader blade.
- Long effective planing length, a smooth and very flat surface finish is achieved.
- Grading attitude is easily set with manual rear wheel "Top Link" adjusters, which, because they are independent, can be set to grade a crown on a road surface.
- Cutting depth and load carried can be easily controlled by the operator via a cab or handle bar mounted control switch which activates an electric actuator.

Optional Calcium Spreader

Handle Bar Mounted Control Switch

With TERRA Master, you can take on any grading challenge and conquer it . . . affordably!

TERRA *Master*

The perfect grading solution!

PATENT NO.: 2093031

Model: XLTG 15-06, XLTG 15-08

XTRA LIGHT TERRAIN GRADER

Specifications:

* O/A Width: 6' 4", 8' 4"
